Sir,

I have the honour to state that under rule 4 of appendix II to Government Order No.G. 8821-30 Sany.128-17-5- dated the 15th November 1918 no vaccinator can be employed who does not possess general educational qualification equal at least to the English Lower Secondary standard and who has not been trained in vaccination. As the services of this type of men are not easily procurable for the post of vaccinators under the new scheme it is proposed to train a number of candidates for employment as vaccinators as vacancies occur. The Superintendent, Vaccine Institute, submits for acceptance the following proposals:--

(1) The class for the training of vaccinators will be held in the vaccine Institute.

(2) The course of training will extend over a period of 3 months instead of two as heretofore.

(3) There will be 3 sessions in a year for holding the class, the first commencing with 1st July, second 1st April and third 1st September.

6. The students to be granted a scholarship of Rs. 10/ each per mensem.

As it is laid down that only local men will be trained and employed as vaccinators the presidents of the various District Boards may be asked to select men locally and intimate the fact to the Sanitary Commissioner from time to time in order that arrangements may be made for the training of the candidates by ~~terms~~ *turns*.

The scholarship proposed to be paid to the students as well as their travelling allowances for journeys to and fro will, of course have to be met by the respective District Boards.

This arrangement will ensure that candidates of the proper type and who have been carefully trained are in future appointed as vaccinators in the State. I request that sanction of Government may kindly be obtained to the proposal.

I may add that the vaccination class need not be held every quarter, as a matter of course, unless at the request of the Presidents of District Boards who will nominate as many candidates as there may happen to be vacancies in the Districts.

Sir,

With reference to your letter No.G.5437-44 dated the 3rd September 1919 calling for opinion regarding the Sanitary Commissioner's proposals for the training of candidates for employment as vaccinators, I have the honour to state that the matter was placed before the District Board at their meeting held on the 25th November 1919 and that the proposals were approved by them. An extract from the proceedings of the Board is enclosed.

2 According to proposals No.4 the number of students for each session should not exceed six. But in the concluding portion of the Sanitary Commissioner's letter the Presidents of District Boards have been given the option of nominating as many candidates as there are vacancies. A modification of the fourth proposal seems therefore to be necessary so that it may be made to agree with the above discretionary power given to the Presidents.

SECRETARIAT
PROTECTION BRANCH.
9 MAR 1920

Copy of the Docket No.54 Dated 6th December 1920 from the District Sanitary officer Hassan District, to the President District Board Hassan

"With reference to your No.R.O.C.265-19 L.F. dated the 22nd November 1919 forwarding a copy of letter No.C.G.31 dated the 26th July 1919 from the Officiating Sanitary Commissioner in Mysore regarding proposals for training candidates for employment as Vaccinator, I have the honour to state as under.

2. The General Educational qualification aimed at by the Government Order No.8821-30 San. 128-18-5 dated the 15th November 1918 is a so sound one and I do not think there is urgent necessity for lowering the standard fixed at present. I have some half a dozen men in this District who possess the above qualification and their work is uniformly of a high order. They feel some responsibility in doing their work and do not generally stoop down to submit false reports and things of that sort as is very common among the vaccinators of the old school. Pay and allowance recently sanctioned by the Government are sufficiently attractive to draw men possessing at least the English Lower Secondary Standard. If it is felt that this qualification is very high the vernacular standard may be substituded.

3. The proposal to select a candidate for training soon after a vacancy occurs in the District presupposes that the vacancy should be kept in in abeyance for three months until the candidate is trained. This does not appeal to me. Sometimes it is necessary to fill up the vacancy at once.

4. I do not see the necessity of extending the course of training over a period of three months instead of two months as heretofore.

5. I have at present about half dozen applications pending disposal in my office from candidates who where trained in the Vaccine Institute before the introduction of the present Government Order and therefore I think there is no necessity for selecting fresh candidates for training at any rate for the present."

APPENDIX.

Rules to regulate the training and employment of vaccinators—

1. The class for the training of vaccinators will be held in the Vaccine Institute at Bangalore.

2. The course of training will extend over a period of three months instead of two as heretofore.

3. There will be three sessions in a year for holding the class, the first from 1st July to 30th September, the second from 1st October to 31st December and the third from 1st April to 30th June.

4. Each session will consist of students not exceeding six in number.

3. The examinations will be held in the month immediately succeeding each session.

6. The District Boards will send the names of the candidates selected by them for training to the Sanitary Commissioner a fortnight before the opening of each session. It is open to the District Boards to send at their discretion either men who are already entertained in the service or private candidates and to award scholarships whenever they choose to do so.
